

Retired Version of DocuTrac Software

As DocuTrac strives to keep its products competitive and feature rich, we continually make changes and improvements to programs with each new version of QuicDoc ® and Office Therapy™. If you haven't kept up to date on these changes, please take a look at the Downloads page on our web site. Our customers, who have come to rely on the efficiency new versions our software have brought to their practice, regularly maintain their products to ensure that they stay current with product updates and technical support.

Unfortunately, there comes a time when older versions of software must be retired in an effort to maximize efficiency in product development and support.

Regarding Office Therapy Version 6.10.50 and earlier:

On June 30, 2008 DocuTrac retired version 6.10.50 of Office Therapy. Our customers were notified by mail and offered an opportunity to upgrade.

Options for support such as phone, email, fax, LiveHelp support, data recovery, and password retrieval services are no longer available for version 6.10.50 or earlier. To register/unlock versions 6.10.50 or earlier you will need to submit an online request form at <http://www.quicdoc.com/regrequest.htm>
However, please note that it may not be possible to register some earlier versions.

If you currently use an installation of Office Therapy that is version 6.10.50 or earlier and wish to update, please call DocuTrac Sales at 800-850-8510 for information.
