

E-Prescribing in QuicDoc ...

E-prescribing in QuicDoc with DrFirst ...

You can significantly streamline your practice while gaining peace of mind with the highest level of patient safety for e-prescribing.

Drastically reduce pharmacy calls and faxes; complete refill authorizations in seconds; reduce potential errors; and even prescribe controlled substances*

Includes:

- Drug/drug and drug/allergy interaction checking
- Prescription delivery through Surescripts® certified technology
- One click renewals
- Electronic mail-order connectivity
- Patient specific formulary status

Important Note

Requires the most recent version of QuicDoc and current annual maintenance

QuicDoc is a Registered Trademark of DocuTrac, Inc

Call Today! You can start transmitting new prescriptions quickly, simply, and securely

The simple and secure transmission of prescription data from the QuicDoc system to connected pharmacies in your area is made possible through Surescripts – the company that manages the behind-the-scenes network.

E-prescribing through DrFirst is the first-ever, fully certified solution that meets the prescription processing requirements set by Surescripts, the Drug Enforcement Administration requirements enforced through the Interim Final Rule (IFR), and the Identity Proofing required set by the National Institute of Standards and Technology (NIST).
