

Office To-Go™

Pocket PC Solution for Office Therapy®

Office To-Go (OTG) is a Pocket PC application designed to provide a mobile solution for Office Therapy Billing Software. OTG synchronizes the Office Therapy Calendar and contact information for clients, referral sources, providers, and insurance companies between a Pocket PC and your Desktop PC. OTG allows you to review and update important information, and to schedule appointments and events while away from your PC.

Features

- Review, add, and edit contact information for Clients, Insurance Companies, and Referral Sources
- Review Provider information
- Search contact lists
- View your schedule by day, week, or month
- Add and edit Appointments and Events
- Enter Appointment and Event Notes
- Synchronize your Schedule, Notes, and Contact Lists

Maintain your schedule anywhere, anytime...

Adding a new appointment is as simple as selecting a time frame and tapping the Appt button. The date, time, and duration pick buttons in OTG make it easy to edit and schedule appointments and events. The week view gives you a graphical interface that lets you *instantly identify available times*.

Have your contact information with you wherever you go. Add and update information including names, addresses, phone and fax numbers, and email addresses.

Quickly find a date using the monthly Calendar. Drop down pick lists, navigation buttons, and drop down menus make Office To-Go easy to use.
