For Meaningful Use ARRA Incentives**

**Intuitive, Intelligent, Affordable  
Enterprise Solution for Behavioral Health  
Clinical Records Management**

## V6.2 Complete EHR Certified for Meaningful Use ARRA Incentives

**Coordinate information, analyze performance, and continually improve care planning and delivery with QuicDoc Enterprise Edition**

Designed by therapists and launched by DocuTrac Inc in 1993, QuicDoc was developed in response to the increasing demands for accountability and the growing need for accurate, timely clinical records. The content of QuicDoc, as guided by therapists and accrediting bodies, is packed with clinical information, outcome tracking, quality assessment, and other reporting features. QuicDoc prompts you for the information you need for continuing care decisions and for reimbursement.

### Documentation to Meet your Requirements

Complete documentation from Intake to Discharge includes Progress Notes, both detailed and SOAP formats; Treatment Plans and OTR forms; Missed Appointment Notes, Incidental Notes for documenting contacts with patients or family members; Discharge Summaries; Group Notes; Psychosocial/Developmental History; Medication management and Medical exam with Review of Systems. The clinical notes and treatment reports can be customized. With QuicDoc you can create your own input screens to capture data for specific documentation and reporting requirements.

Extensive, quick entry pick lists and auto text make QuicDoc easy to use. The interface gives you ready access to the information you need, and context sensitive menus, toolbars, and an up-to date Help system make it easy to use.

### Additional Features

- E-prescribing Capability
- Voice Recognition Capability
- HIPPA Compliance Features
- Client Photos
- Tickler Reminders and Alerts
- Internal Messaging
- Unlimited User Fields for Clients
- Intake Tasks Checklist
- Tablet PC Compatible
- Automated Appointment Reminders
- Document Templates & Mail Merge
- Electronic Signature Pad Capability

### What QuicDoc Can Do for You

Allows you to keep comprehensive clinical records while spending less time on notes and treatment plans.

Streamline your documentation and still be able to record the smallest details of the care you provide.

Standardize and simplify your documentation procedures.

Assure complete, accurate records are in place for review by accrediting agencies.

Organize information for increased productivity and improved work flow.

Monitor quality of care and client satisfaction to increase overall effectiveness.

Keep on top of sessions that need to be documented, treatment plans that are due, intake tasks, as well as track all requests and disclosures of client protected health information.

Qualify for Meaningful Use Incentives and prepare for future incentive qualifications.

Attach documents including scanned documents to client records.

Track continuing education credits for professional requirements.

Increase security and control of access with user roles that are easy to set up.

Scaleable and network ready, QuicDoc can grow with your needs.

# Powerful Enterprise Features in QuicDoc

QuicDoc Enterprise is designed for mid range to large multi-user network facilities where data access requirements are greater in terms of number of users and database size. QuicDoc Enterprise handles data with greater optimization and more efficient, faster data processing. The Enterprise Edition has a high level of security with user roles, and the ability to create your own input screens and customize other areas of the program. Additionally it includes features such as the Scheduler and QuicForms™ for treatment plans, as well as the following:

- Multiple database capability
- Ability to create your own custom notes and forms
- Patient Vital Signs and Physical Exam
- Restrict provider access by date, program, and assignment
- Text search feature
- International date and phone formats
- Review of Systems
- Medication Management
- Lab reminders
- List and Track Family members
- HL7 Interface Capability
- Macro and auto text features

## Customization for Specific Agency Needs

Many agencies have existing systems in place for tracking information other than clinical data. DocuTrac can customize QuicDoc and provide utilities that can efficiently use data from these existing systems. Examples include linking, integration, or data exchange with other database systems such as billing systems. DocuTrac can also provide customized reports and integration of agency-specific forms.

## Outcomes Made Easy

QuicDoc will automatically track symptoms, impairments, and GAF, as well as vital signs entered over the course of treatment. QuicDoc also has built-in outcome measures, including Patient Satisfaction, plus the ability to set up virtually any measure you wish to use to track your client progress.

## Who Uses QuicDoc

Following are some of the settings where QuicDoc Enterprise Software is being used:

- Hospitals including Military and Veterans Hospitals
- Employee Assistance Programs
- Alcohol and Substance Abuse Centers
- Outpatient Clinics including County and State Mental Health Facilities
- University Counseling Centers
- Large Group Practices

## QuicDoc® V6.2 for ONC-ATCB Complete EHR Certification:

This Complete EHR is 2011/2012 compliant and has been certified by an ONC-ATCB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services or guarantee the receipt of incentive payments. QuicDoc® Enterprise, DocuTrac Inc., March 4th 2011, Product Version 6.2, Certification ID Number 03042011-1786-6. Additional software relied upon to certify: Windows (XP or newer); Lockout for Auto Logoff; NewCrop Rx.

## Complete EHR Certified Software for Meaningful Use ARRA Incentives

Eligible professionals and agencies using QuicDoc Enterprise Edition version 6.2 Software can be qualified to receive incentives for the Medicare and Medicaid Meaningful Use Incentive Program for EHR technology.

Providers using our certified software can make use of onsite as well as web delivered training and are given exclusive access to video training files that not only explain the Meaningful Use Incentive Program but also shows the clinicians and management how and where to record the necessary bits of data to satisfy the core and menu measures that The Centers for Medicare and Medicaid (CMS) requires. This type of information developed in informal, hands on medium such as video and then delivered over the web, we believe honors our customers' time and ability to quickly integrate these new areas of documentation into their workflow.

### Steps to Meaningful Use Incentives

As makers of QuicDoc, we will continue to provide quality EHR products to help you meet the growing number of rules, regulations, and requirements but more importantly products that become an indispensable "third hand" in the operation and growth of your facility.

**Service and Support:** DocuTrac is committed to providing the best support available. To that end, we have a dedicated staff in our technical support department ready and willing to serve our customers.
