**DocuTrac, Inc marks Tenth Year Anniversary**

Hagerstown, Maryland January 2, 2003 – DocuTrac Inc. announces a milestone anniversary. This year marks the ten-year anniversary for DocuTrac, Inc. (DTI), a behavioral health and human services, software development corporation. Formed in 1993, DTI develops systems for clinical documentation and practice management. Their products include enterprise systems for large behavioral health facilities, as well as shrink wrapped software for solo and small group practitioners.

“This past decade has seen many changes for the company and tremendous growth. We have worked hard to provide our customers with state-of-the-art, sophisticated products that are user-friendly and clinically meaningful, yet economical. By acquiring the Office Therapy™ billing program, we’ve expanded both our market and our customer base even more. We will continue to be a leader in this industry by being honest with our customers, responding to their needs, and by providing excellent customer service,” says DTI President Arnie Schuster, Ph.D.

DTI located in Western Maryland, provides products and services for behavioral health and human service industries. DTI is committed to incorporating new technologies and advances in their software while keeping it affordable for clinicians. For additional information on DTI products visit their web site at [www.quicdoc.com](http://www.quicdoc.com) or call 800 850-8510.
